SURGICAL OPERATIONS

PATRICK HERON, M.D.

CANDIDATE

CHAIR OF CLINICAL SURGERY
IN THE UNIVERSITY OF EDINBURGH

1857-58

TRAINING AND TEACHING WORK IN SURGERY

QUALIFYING FOR THE CHAIR

1858-59

Course of Lectures on Systematic Surgery—Winter

1858.

Licentiate of Royal College of Surgeons of Edinburgh.

Obtained the Degree of Doctor of Medicine in Edinburgh.

Resident Surgeon, Royal Infirmary.

Senior President Royal Medical Society of Edinburgh.

Course of Lectures on Special Surgical Pathology—Summer

1854-55.

Staff Assistant Surgeon in the Crimea.

Assistant-Surgeon of Royal Artillery.

Crimean and Turkish Medals and Clasps

Elected a Fellow of the Royal College of Surgeons, Edinburgh.

1856-57.

Tutorial Assistant to the late Professor Miller in his Class of Systematic Surgery in the University of Edinburgh.

Elected a Member of the Medico-Chirurgical Society of Edinburgh.

Conducted a course of Instruction in Surgical Appliances, and delivered a course of Lectures on Fractures and Dislocations.

Passed the Examination for the Lectureship on Surgery at the Royal College of Surgeons.

Delivered a Summer course of Lectures on Special Surgical Pathology.

1857-58.

Course of Lectures on Systematic Surgery.*

Course of Lectures on Special Surgical Pathology.†

Elected Surgeon to the Magdalene Asylum.

Elected Surgeon to the Edinburgh Eye Infirmary.

1858-59.

Course of Lectures on Systematic Surgery—Winter.

Course of Lectures on Special Surgical Pathology—Summer.

Elected Honorary Secretary to the Medico-Chirurgical Society.

1859-60.

Course of Lectures on Systematic Surgery—Winter.

Course of Lectures on Special Surgical Pathology—Summer.

Elected Assistant Surgeon to the Royal Infirmary.

1860-61.

Course of Systematic Surgery—Winter.

Course of Special Surgical Pathology—Summer.

1861-62.

Course of Systematic Surgery—Winter, and Lectured in the University for Professor Miller.

Course of Special Surgical Pathology—Summer.

Conducted Professor Syme's Class of Clinical Surgery.

1862-63.

Course of Systematic Surgery—Winter.

Course of Special Surgical Pathology—Summer.

Elected Surgeon to the Royal Infirmary.

* This course and the other summer courses consist of a series of 100 lectures, divided into practical and theoretical.

† This course and the other summer courses consist of a series of 100 lectures, divided into practical and theoretical.

1863-64.

Course of Systematic Surgery—Winter.

Course of Military Surgery and Hygiene—Summer.

Appointed Examiner in Surgery to the University of St Andrews.

Elected a Fellow of the Royal Society of Edinburgh.

1864-65.

Elected Lecturer on Surgery in the Medical School of the Royal College of Surgeons, Edinburgh.

Course of Systematic Surgery—Winter.

Course of Military Surgery and Operative Surgery—Summer.

1865-66.

Lectures on Systematic Surgery—Winter.

Lectures on Special Surgical Pathology.

Elected Surgeon to Chalmers Hospital for Sick and Hurt.

1866-67.

Lectures on Systematic Surgery—Winter.

Lectures on Special Surgical Pathology—Summer.

Elected one of the Board of Examiners of the Royal College of Surgeons.

1867-68.

Lectures on Systematic Surgery—Winter.

Lectures on Operative Surgery—Summer.

1868-69.

Lectures on Systematic Surgery—Winter.

Lectures on Operative Surgery—Summer.

Total number of Pupils since 1857 amounts to 1148.

19-5581

LIST OF WRITINGS BY DR. P. H. WATSON.

1. A System of Surgery.

The Second portion of Professor Miller's work, or Practice of Surgery, was edited and largely re-written by Dr. Watson, at Professor Miller's request; and under his superintendence.

2. Suggestions, with Rules and Regulations for the Completion and Maintenance of Port-William Hospital. 1864.

3. Excision of the Knee-Joint. A description of a new apparatus for the after treatment, with illustrative cases. 1867.

4. The Modern Pathology and Treatment of Venereal Diseases. 1861.

5. On the transmission of Syphilis by Vaccination, being a translation of two Lectures by M^r le Docteur Ricord. 1862.

6. The present condition of Aural Pathology and Surgery. —Edin. Med. and Surg. Journal. 1864.

7. Orthopædic Surgery in 1856-1857.

8. Ligature of the Brachiocephalic Artery. A Review. 1858.

9. Excision of the Superior Maxilla. 1859.

10. Recent works on Syphilis. A Review. 1858.

11. The State of Military Surgery during the Crimean War. A Review. 1858.

12. Tracheotomy for the Removal of Foreign Bodies from the Larynx. 1859.

13. Recent works on Military Surgery—British and Foreign, 1859.

14. Cancer of the Female Bladder. 1860.

15. Plastic Restoration of the Eyelids.—Report of the Edinburgh Eye Infirmary. 1860.

16. Present State of the Pathology of Venereal Diseases. 1860.

17. Present State of the Pathology of Venereal Diseases. 1861.
18. The Radical Cure of Umbilical Hernia in the Adult.—A new method of treatment. 1862.
19. On Syphilitic Affections of the Nervous System. A Review. 1863.
20. Lithotomy with Cases—a Clinical Lecture. 1863.
21. New Instrument for the Relief of Retention of Urine in cases of Tight Stricture of the Urethra. 1863.
22. Cases of Injury of the Urethra, with rare complications. 1864.
23. On Surgical Diagnosis. (A Review.) 1864.
24. Cases illustrative of the Employment of Acupressure as a Hemostatic agent. 1865.
25. Introductory Address at Surgeons' Hall, at the commencement of the Winter Session 1866-1867.
26. On the Treatment of Disease of the Knee-Joint by Excision. 1866.
27. Illustrative Cases, and Clinical Remarks, on Excision of the Knee. 1866.
28. On Intestinal Concretions, with an illustrative case. 1867.
29. Removal of Foreign Bodies from the Female Bladder, with cases. 1868.
30. The Treatment of Aneurism by Compression, and the use of a new instrument. 1869.
31. Removal of a Tumor from the Pterygomaxillary region. 1869.
32. Lithotripsy, and a new Lever Lithotrite. 1869.
33. Amputation of the Scapula, Clavicle, and Arm. 1869.

17. Present State of the Pathology of Venereal Diseases.

18. The Radical Cure of Stricture in the Adult.

19. On Syphilis: A Treatise on the Venereal System.

20. On the Pathology of the Venereal System.

21. On the Pathology of the Venereal System.

22. On the Pathology of the Venereal System.

23. On the Pathology of the Venereal System.

24. On the Pathology of the Venereal System.

25. On the Pathology of the Venereal System.

26. On the Pathology of the Venereal System.

27. On the Pathology of the Venereal System.

28. On the Pathology of the Venereal System.

29. On the Pathology of the Venereal System.

30. On the Pathology of the Venereal System.

31. On the Pathology of the Venereal System.

32. On the Pathology of the Venereal System.

33. On the Pathology of the Venereal System.

34. On the Pathology of the Venereal System.

35. On the Pathology of the Venereal System.

36. On the Pathology of the Venereal System.

37. On the Pathology of the Venereal System.

38. On the Pathology of the Venereal System.

39. On the Pathology of the Venereal System.

40. On the Pathology of the Venereal System.

41. On the Pathology of the Venereal System.

42. On the Pathology of the Venereal System.

43. On the Pathology of the Venereal System.

44. On the Pathology of the Venereal System.

45. On the Pathology of the Venereal System.

46. On the Pathology of the Venereal System.

47. On the Pathology of the Venereal System.

48. On the Pathology of the Venereal System.

49. On the Pathology of the Venereal System.

50. On the Pathology of the Venereal System.

51. On the Pathology of the Venereal System.

52. On the Pathology of the Venereal System.

53. On the Pathology of the Venereal System.

54. On the Pathology of the Venereal System.

55. On the Pathology of the Venereal System.

56. On the Pathology of the Venereal System.

57. On the Pathology of the Venereal System.

58. On the Pathology of the Venereal System.

19. On Excision of the Upper Jaw.
20. On a New Instrument calculated to assist in the Reduction of Dislocations.
21. On Compound Dislocation of the Ankle.
22. On Medullary Disease of the Eyeball, and the results of Extirpation of the Globe in these Cases.
23. On Scrofulous Disease of the Testicle.
24. On the Mulberry Calculus.
25. On the Nature and Causes of Pyæmia.
26. On Gunshot Wounds and their Treatment, past and present.
27. On Fracture of the Base of the Skull.
28. On the Comparative Influence of Ligature and of Acupuncture, as means of arresting Arterial Hemorrhage, upon the healing of Amputation Wounds.
29. On the Causes which determine the Nature and Severity of the result in the Embolic Obstruction of Arteries.
30. On an Hereditary Syphilitic Disease of the Lower Extremity simulating Elephantiasis.
31. Case of severe Railway Injury of the Foot, in which every bone was more or less comminuted, while the Integuments remained intact.
32. Case of Gangrene of the Forearm after Compound Comminuted Fracture, in which Amputation of the Arm proved successful.
33. Cases illustrative of various points connected with the history and progress of Prostatic Disease.
34. Case in which a Cyst formed within the Coats of the Bladder compressed the Ureter, and produced a fatal result from Uremia.
35. Case of Stricture of the Urethra, illustrative of the effects of rapid Dilatation.
36. On the Use of the Probe-pointed Steel Catheter in Cases of Retention complicating Stricture.

On Dissection of the Uterus, &c.

1864.

37. Upon Injury of the Frontal Bone, &c.
 38. On the Performance and Results of Amputation at the Ankle-Joint by the Internal Lateral Flap Operation.
 39. On Enchondroma of the Lower End of the Radius and its Removal.
 40. Upon Excision of the Knee-Joint.
 41. On Malignant Disease of the Condyles of the Femur resembling Articular Disease.
 42. Further Pathological Observations upon the Intimate Structure of the Growth in the above case.
 43. Fracture of the Neck of the Scapula, together with the Humerus and Ribs, with Laceration of the Axillary Artery from direct Violence.
 44. The Case of an Elderly Female in whom a Myeloid Tumour developed itself in the Periosteal Tissues of the Hard Palate.
 45. A Peculiar Angular Sequestrum from the Tibia, being the Wall of a Trephine Wound.
 46. Case of Extensive Disease of the Femur and Tibia, requiring Amputation high in the Thigh.
 47. On Embolic Obstruction of the Vessels of the Limbs and the attendant Symptoms.
 48. On Fatal Hemorrhage in Varix.
- 1865.
49. Cases Illustrative of the Employment of Acupressure as a Hemostatic Agent.
 50. Sanguineous Apoplexy in a Child.
 51. On the Condition of Arteries of Large Size occluded by Acupressure.
 52. Fatal Hemoptysis occurring a few hours after Tracheotomy.
 53. Fracture of the Symphysis and Angle of the Jaw from the same Injury.

54. Amputation at the Ankle-Joint, with an Anterior Rectangular Flap.
 55. Removal of portions of Catheter from the Bladder.
 56. New Apparatus for the After-treatment of Cases of Excision of the Knee-Joint.
 57. New Pattern of Conical Probe-pointed Catheter and Bougie for the Treatment of Cases of Tight Stricture of the Urethra.
 58. Removal of an Injured Testicle on account of Neuralgia.
 59. Cases of Excision of the Knee-Joint.
 60. Primary Excision of the Knee-Joint.
 61. Primary Excision of the Wrist and Carpus for Gunshot Wound.
 62. Laceration of the Brain.
 63. Removal of a Vesical Calculus in an Epileptic.
 64. Treatment of Fracture of the Radius by Gordon's Splint and a Modification.
 65. Removal of the Tongue for Cancer by means of the Excisor.
 66. Removal by Lithotomy of a Phosphatic Calculus.
 67. Employment of Acupuncture.
- 1866
68. Excision of the Knee-Joint, with Illustrations.
 69. Further Illustrations of Excision of the Knee-Joint.
 70. On the Period required for Consolidation of the Parts after Excision of the Knee-Joint.
 71. Excision of the Knee in Case of Disease with extensive Abscesses.
 72. Excision of the Ankle-Joint in a Child.
 73. Removal of a Mulberry Calculus from a Female by Dilatation of the Urethra.
 74. Cases of Lithotripsy and Lithotomy.
 75. Treatment of Cleft, Hard, and Soft Palate, by Langenbeck's Method.
 76. Removal of a Large Tubercular Testis.
 77. Excision of the Knee, leaving the Patella.

1867.

78. Excision of the Knee-Joint, showing Conditions of Disease.

79. On the Use of Artificial Diaphragms in Cleft Palate compared with the Effects of Langenbeck's Operation.

80. Amputation at the Hip-Joint in which all the Vessels were secured by Acupressure.

81. Excision of the Wrist-Joint.

82. Excision of one half of the Tongue completely effected by Three Escarous applied at the same time.

83. Excision of Loose Cartilage from the Knee, in which Antiseptic Treatment was employed.

1868.

84. Cancer of the Female Bladder.

85. Arterial Obstruction in Senile Gangrene.

86. Large Pendunculated Exostosis of the Femur, with an extraordinary History.

87. Tumour (Malignant) of the Upper Jaw removed successfully.

88. Tubercular Tumour of the Testicle of large size.

89. Excision of the Entire Calcaneum.

90. Lithotripsy, with Specimens from Four Recent Cases.

1869.

91. Two cases of Excision of the Knee-Joint, one Ten Years, the other Three Years after Operation.

92. A New Lithotrite.

93. Three Cases of Lithotripsy with Successful Results.

94. Four Cases of Excision of the Knee-Joint on account of Disease originating in the Synovial Membrane.

95. Excision of the Head of the Humerus on account of Disease following an Injury.

96. Two Cases of Excision of the Elbow-Joint, — one in a Child, the other in an Adult.

97. Case of Excision of the Wrist-Joint by a New Operation, consisting in a Single Linear Dorsal Incision.
